

# Dinosaurs Week 2

## Thursday

### Dino dance

Watch the dance below and create your own dinosaur dance incorporating the different ways that dinosaurs move. Can you introduce music to your dance?

<https://www.youtube.com/watch?v=Imhi98dHa5w>

### Dinosaur hat

Click on the link below to follow instruction on how to create your own dinosaur hat. You can use this to role play with or even as a prop for your Dino dance.

### Draw a T-Rex

Follow the link below to draw a T-Rex

[https://www.youtube.com/watch?v=Ey\\_I7cP6jNw](https://www.youtube.com/watch?v=Ey_I7cP6jNw)

### Split pin dinosaur

Practice your scissor skills by cutting out the dinosaur body parts template (or make your own) and assemble each part of the body with split pins (or something similar). The split pins will allow the joints to move and you can use this to play with. \*\*Adults may want to hole punch the split pin area for their child first.

# Movement

### National History Museum

Visit the website of the Natural History Museum and explore the wonderful facts and virtual exhibits that they have to offer on dinosaurs.
