

Use this sheet to build up your confidence to **attempt** the main worksheet. Remember, do your best and **give it a go**. 😊

Today's top tip- to work out the total of picture diagrams, count the number of coloured parts you can see.

Use the example to help you.

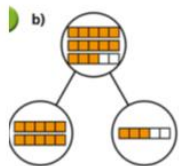

1 Complete the sentences.

There are 7 fifths altogether.

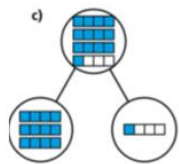

7 fifths = 1 whole + 2 fifths

1.

There are 13 fifths altogether.

13 fifths = 2 wholes + 3 fifths

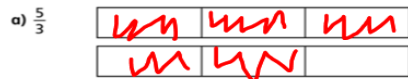

There are 13 quarters altogether.

13 quarters = 3 wholes + 1 quarter

2.

Shade the bar models to represent the fractions.

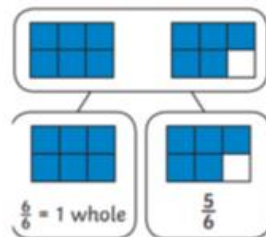

Complete the number sentences.

$\frac{5}{3} = 1$ whole + 2 thirds = $1\frac{2}{3}$ or $\frac{5}{3}$

3.

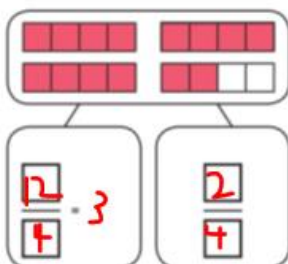

1) Copy and complete the table.

There are 11 sixths altogether.

11 sixths = 1 whole and 5 sixths

4.

There are 14 quarters altogether.

14 quarters = 3 whole ones and 2 quarters
