9th June 2026

Year 6 Shelter Building trip – 17th June 2026

Dear Parents / Carers,

We are very pleased to have the opportunity for our year 6 children to attend a Wildway Bushcraft session through The Fresh Air Club on 17th June 2026. These sessions will build upon their learning around shelter building which they have been covering as part of their Design Technology curriculum in school. The sessions will be held at The Fresh Air Club’s Wildway Bushcraft site, Verwood, close to the Heavy Horse Centre.

Children will travel to and from the event in the school minibuses:

6EC session will be from 11.15am until 1.00pm

As this trip will be over the lunchtime period, they will need to have a packed lunch from home on that day, so they are able to have a late lunch, after the session. Unfortunately, due to the timing of the trip, Chartwells will not be able to convert any hot meals that have been ordered for 6EC children to packed lunches, however, if you usually pay for meals, Chartwells should apply a credit to your account.

To ensure the children are comfortable during these sessions, they should come into school on 17th June wearing their normal school PE kit. The forecast is indicating there may be some rain, so please ensure your child brings a coat and wellies or shoes (that you do not mind if your child gets them a bit muddy).

Please complete and return the attached permission slip to the school office by Friday 12th June 2026.

Year 6 Shelter Building trip – 17th June 2026

I give permission for my child to attend this event.
