

## Blow painting

Blow painting is a wonderful and relaxing process with unpredictable and beautiful results!

### Materials, you will need:

- **Straws**
- **Liquid watercolours or food colouring or mix normal paints with water**
- **Small cups**
- **Paper**
- **Tray**

### Instructions:

1. Mix your liquid **watercolours/ food colouring/ paints** in individual cups with water to make your liquid paint.
2. Place a piece of paper on a tray.
3. Place a straw in one of the liquid paint cups. Now place your fingertip over the top of the straw and lift up without removing your finger.
4. Place the straw over your paper and let go. The paint will drop onto the paper.
5. Place the straw near the drop of paint and blow to move the paint around.
6. Repeat with more colours.

### Make it into monster!

- Sketch a monster face in the middle of your page.
- Use permanent markers to fill in the face with colour. Use black marker to outline your monster, define the eyes, mouth, and other details.
- Use the blow painting process above starting with the outline and working OUT.

Can you make your blow painting look like anything else? Maybe trees or a beach scene – see what you can come up with!
